

HACKMEET 2.1

A one day workshop exploring practical skills that will help keep you and your information safe from the pigs. Topics and trainings will include: computer and phone encryption, secure communications, anonymity on the web, secure collaboration tools, and much more.

Stop by to learn the tools and practices that will help you stay safe. All skill levels welcome as the workshop will be an introduction to tools and technology (optional: please bring a laptop and usb key if you have them).

JAN 21 AT THE HOLDOUT
12-5 PM · 2313 SAN PABLO AVE., OAKLAND
