Groups and Network Setup will be facilitated by the FN Collective. Initial setup is where the network structure, democratic process, proposal process and timeline are determined. Also user permission will be determined at this time. FN software will guide admin / super users through the appropriate steps, but FN Collective members will need to be in contact with groups and networks to facilitate the process.

INDIVIDUAL

- create user name and password
- create profile
- request to join to a group form
- accepted:
 - ... access given to group pages
 - ... your profile added to group page
- denied
